# Shaping your Experience

*Operable Walls*  
*Glass Walls*  
*Vertical Lift*  
*Accordion Doors*

**At Hufcor, we shape the experience that people have within a built environment—we're in the business of space management.**

Offering the widest range of glass, operable, vertical lift and accordion partitions, our products are the most installed brand of partitions in the world. Our products shape space by providing flexible sight and sound separation and enable our customers to control the atmosphere and experience of their space.

Shaping your experience isn't just about what we do, but how we approach business. Committed to advancing what's possible in space management, we're more than just manufacturers—we are consultants that have more, do more and deliver more for our customers. Every day we work with architects, contractors and building owners across diverse markets to help them maximize the utilization of their space and realize what's possible.

We shape our customers' experiences through the breadth and quality of our expertise, capabilities and products along with our inherent drive to solve problems. This uniquely positions Hufcor to reliably deliver exactly what's needed.

***We're a partner to rely on.***

# Through our people, we **have more.**

## ***NOBODY KNOWS SPACE MANAGEMENT LIKE WE DO.***

Innovating flexible space solutions requires more than just skill—it requires pride and passion. At Hufcor, we have both: pride in our company and the products we create and a passion for delivering solutions—together. In every engagement, we bring a positive, can-do attitude and insatiable desire to do the best job possible for our customers. We value our relationships and want to be your long-term partner.

With years of experience, we've built our careers in the flexible space management industry—bringing unparalleled knowledge, skill and counsel into every project to deliver exactly what's needed.

We consult.

We design.

We engineer.

We manufacture.

We test.

We transport.

We install.

We maintain.

***NOBODY KNOWS SERVICE, ENGINEERING  
AND DESIGN LIKE WE DO.***

Our full-service capabilities make us a single-source partner for our customers' space management needs.

Through our capabilities, we **do more.**

# Through our performance, we **deliver more.**

## *EXACTLY AS PROMISED.*

At Hufcor, we hold ourselves to higher standards. Through our ongoing commitment to process improvement, passion for innovation and rigorous quality control procedures, we design and manufacture products of only the highest quality. Our products are built to last.

Architects, contractors and building owners choose Hufcor with absolute confidence. Our highly experienced people and streamlined manufacturing processes paired with our proprietary delivery fleet ensures an on-time, on-budget,

damage-free product. Our reputation for consistent performance and reliable, worry-free delivery enables us to build lasting, long-term partnerships with our customers. You can count on us.

**WHEN IT COMES TO SPACE, THERE'S  
NO SUCH THING AS ONE-SIZE-FITS-ALL.**

Hufcor's talented team of engineers will provide their expertise and work collaboratively to deliver modifications or custom solutions to meet your needs. No challenge is too big or too small. We're always eager and willing to understand the specific requirements of your project to deliver exactly what's needed.

# Focused on **Customerization.**

**Customerization** [*kəstəməɪ-ih-zey-shun*] noun

1. A business approach where a company is able to establish a dialogue with individual customers and respond by customizing its products, services and messages on a one-to-one basis according to specific customer preferences.

2. The act of creating a truly unique product through the collaborative partnership of the producer and consumer.
3. A process that makes it easy and enjoyable to do business.
4. Hufcor

# Our products

We are the single-source partner for the widest range of operable partitions in the world, including: glass walls, operable walls, vertical lift walls and accordion doors. Our products provide flexible sight and sound separation that enable the users of our products to control and shape the experience of their space. As the most installed brand of operable partitions worldwide, our products can be found everywhere.

*Hufcor's GlassWall™ movable partitions allow natural light to flood an interior space while providing space flexibility*

## **GLASS WALL**

Combining the drama and beauty of glass with the functionality of operable partitions, Hufcor's GlassWall™ movable partitions allow natural light to flood an interior space while providing space flexibility. Found in retail storefronts, restaurants, schools, bank lobbies, airports and office spaces worldwide, our range of movable GlassWall™ solutions can be engineered and designed to fulfill the specifications and requirements of any interior space.

## **OPERABLE PARTITION**

Operable partitions—also known as Airwalls®, movable walls or flat panels—are recognized worldwide for their unparalleled quality, design flexibility, acoustic performance and lasting durability. Hufcor Series 600™ operable partitions are made of welded, heavy-duty 16-gauge steel and can be designed with the industry's most comprehensive range of dimensions, performance options and decorative finishes.

## **VERTICAL LIFT**

Summit® Vertical Lift walls take flexible space in a completely different direction—up. Unlike traditional operable panels that move horizontally through an opening, Hufcor's patented vertical lift systems take acoustic operable panels through a narrow slot in the ceiling and stacks them neatly hidden out of sight with the push of a button. This space-saving design maximizes an interior's available floor space making Summit® vertical lift walls a great choice for convention centers, hotel ballrooms and buildings where square footage matters most.

## **ACCORDION DOORS**

Hufcor's Accordion doors are the fastest, easiest way to shape space. Also known as room dividers, accordion walls and concertina doors, accordion doors are an ideal sight and sound barrier for interiors that require frequent flexibility in space division. Available in a wide range of fabrics and acoustical ratings, Hufcor accordion doors can be custom designed and manufactured to suit the specific needs of your space.

We're in **more places**  
than you might think.

## ***MARKETS SERVED***

Our wide range of products are found in buildings everywhere—from the largest convention centers and entertainment arenas to local schools, religious buildings, restaurants and commercial office spaces. In every engagement, our people bring their expertise in flexible space management and added value through their specialized knowledge and understanding of the unique needs, challenges and applications of our products across industries.

Together, we'll help you realize what's possible in:

» ***Hotels and Hospitality***

» ***Convention Centers***

» ***Education***

» ***Retail***

» ***Commercial Offices***

» ***Museums***

» ***Religious***

» ***Restaurants***

» ***Tactical Training FlexTact®***

Local, certified  
service, **anytime.**

## ***SERVICE & MAINTENANCE***

At Hufcor, we're here for more than just the install, we're here the entire life of a facility. As a critical structural, design and, at times, security component of a space, we understand the need for a movable wall system to work reliably every time. Offering the most expansive network of certified service professionals in the industry, our team is always on call to respond to and resolve repairs quickly and professionally 24/7/365.

Through our nationwide service network, we proudly offer the industry's broadest offering of service and maintenance capabilities for any operable partition manufactured by us or anyone else.

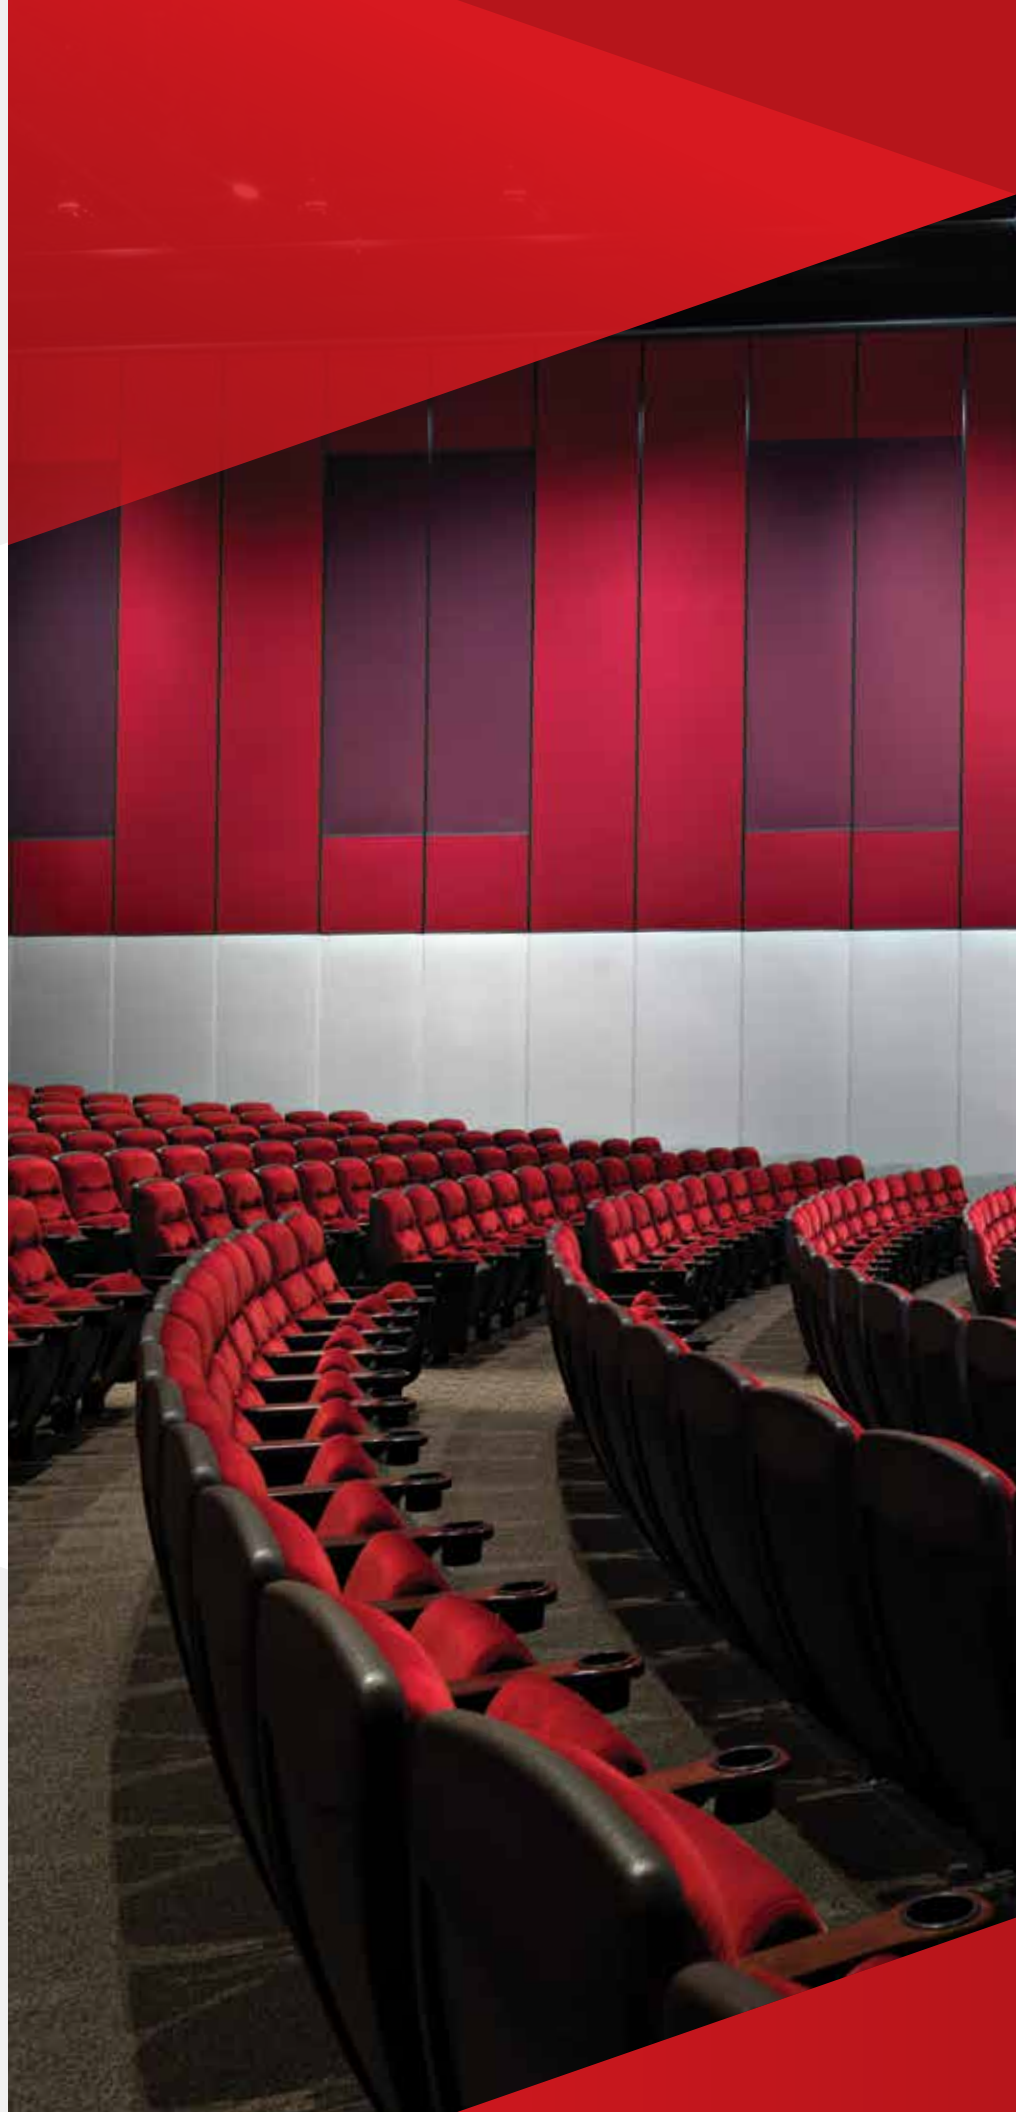

- » ***Preventative Maintenance Programs***
- » ***Emergency Service***
- » ***Partition Recovering & Refurbishment***
- » ***Service for Non-Hufcor Products***
- » ***Turnkey Panel Replacement***
- » ***Track & Trolley Replacement***
- » ***Replacement Parts***
- » ***Acoustical Testing***

## **ABOUT HUF COR**

Hufcor is an American company based in Janesville, Wisconsin. Founded in 1900, Hufcor began as Hough Shade Corporation when founder Azel Hough started the company as a manufacturer of wood slat porch shades. Hough was a pioneer in the industry developing the products, machinery and processes that shaped what the construction industry knows today as operable partitions.

As the world leader in flexible space management, Hufcor designs and manufactures the most installed brand of operable partitions worldwide. Today, Hufcor has global operations with manufacturing facilities located in Australia, China, Germany and Malaysia. Additionally, Hufcor has a network of global licensees in strategic geographical regions. As a result, Hufcor is specified, bid, manufactured and installed in hotels, schools, churches and convention centers around the world.

### **QUALITY STATEMENT**

At Hufcor, we put our customers first. Which is why quality is at the heart of everything we do—our operations, processes and relationships. From the rigorous quality procedures embedded throughout our manufacturing systems to the inherent moral values and ethics of our people that guide our business, we operate under the guiding principle that we do things right and we do the right thing—always.

### **WARRANTY**

Hufcor partitions have an international reputation for expertly engineered design and top quality workmanship. Our partners choose and specify Hufcor with confidence knowing they can count on Hufcor, not only for reliable delivery, but for reliable products that are built to last. We proudly back every product with the most comprehensive warranty coverage in the industry. We stand by our products.

### **CERTIFICATIONS**

Hufcor achieved ISO 9001 registration in 1996 and is the only U.S. manufacturer of operable partitions to do so. ISO registration confirms that we have in place internal processes and systems that conform to international quality standards. Regular check-ups by our registration authority confirm we adhere to the ISO guidelines and requirements today.
